

MUST HAVE

To start your Online Programme in September

ONLINE PROGRAMME

You probably already know that the study programme you applied for will be offered online. By doing so we can ensure the continuous accessibility to education in a safe way. In short, this means that you do not need to travel to the Netherlands to start your study programme.

WHAT ARE MY OPTIONS?

1. Starting the online programme in September 2020 in your home country.
2. Starting the online programme in the Netherlands.
3. Starting the online programme in February 2021 (**only applicable for the International Business programme**)
4. Canceling your current application.

SAXION'S RECOMMENDATION

We strongly advise you to start your study program from your home country, in September. This way you will not have any delay in your study programme and hopefully Saxion will be able to offer onsite education again from February 2021 onward. This all depends on the developments of the Covid-19 situation.

WHAT IF I DECIDE TO CANCEL MY APPLICATION?

Saxion understands that you may have no other choice but to cancel your application, you can do this via Studielink. Of course you are more than welcome to submit your application for the following academic year of 2021-2022 or for February 2021 (**only applicable for the International Business programme**). It will be possible to submit new applications from October 2020.

...AND I ALREADY PAID?

In case you have already made the payment to Saxion and you have to cancel your application, you are entitled to a full refund. You will then need to cancel your application before the 31st of August 2020 and inform the international office by email: internationaloffice@saxion.nl
