About *Ad Hoc!*

Ad Hoc manages vacant properties on behalf of property owners and housing associations to protect them from the risks associated with vacancy. We do this by placing temporary occupants in the properties. This not only protects the otherwise vacant properties from squatting and vandalism, but also provides opportunities for those looking for a home. In short, it's a win-win situation!

Anti-squatting:

Anti-squatting accommodation with Ad Hoc is affordable. You get plenty of living space at low costs. In return, we expect you to be flexible and to have a strong sense of responsibility. There are clear house rules regarding, for example, keeping the property in good condition, forwarding post or notifying us of any long-term absence. It is difficult to estimate how long you can live in anti-squatting accommodation. There's a 28 day's notice.

INCLUSIVE OR EXCLUSIVE:

The monthly anti-squatting fee is €300, including gas, water and electricity or €205, excluding gas, water and electricity.

excluded?

Sign up with a supplier for gas, water and electricity. Make sure these contracts start on the same date as your contract with Ad Hoc.

included?

Then you don't need to arrange anything yourself regarding utilities! Perhaps you'd like internet? You'll need to arrange that yourself!
