

Higher education can reopen!  
We summarize here what that looks like for you.

## Education will be a combination of classes on location and online classes

- If you are taking an international degree programme then you will in some cases still be having classes online, as many of your fellow students will still be abroad.
- If you come to campus for an educational activity, we strive for this to be for at least 4 hours. These activities can be scheduled or not.
- We strive for as much teaching hours on a single day instead of spread out over a week.
- We strive for a timetable that offers you the greatest possible regularity for the duration of the term.
- We try to let you switch as little as possible between online education and classes or lectures given on campus on the same day.
- We want to enable you to have ongoing access to visual or audio recordings of the live streamed or previously recorded lectures (in part or in their entirety).
- Space will be made available for you to undertake activities together with fellow students or to have contact with lectures or study career counsellors.

## How will things be in the buildings?

We follow the basic scenario of the Ministry of Education, Culture and Science. This means that from 30 August:

- You will no longer be required to maintain a distance of 1.5 metres.
- You only have to wear a face mask when you move through the communal areas of the building. So remember to bring a face mask with you!
- You will be required to follow walking routes in the building.
- A maximum lecture hall capacity of 75 persons will apply.

## Catering and other facilities

- All Saxion buildings are equipped with a 'healthy' mechanic ventilation system that draws fresh air into the building from outside and expels the 'used' air. We do recommend opening a window every now and then.
- All areas where educational activities take place as well as all workspaces are delivered hygienically cleaned at 8 AM.
- The sanitary facilities will be subjected to an additional round of cleaning, and we will continue to pay additional attention to the cleanliness of all 'touchpoints' (bannisters, lift buttons, etc.).
- The restaurants, Bakery's and cappuccino bar will be open again. Orders can be placed at the Bakery through the '[Oh appy day](#)' [app](#) and picked up. Scan the QR code to make an account. The AH To Go intends to reopen its doors this autumn.

## Keep testing yourself for COVID-19 before coming to Saxion

By doing a self-test you help us keep everyone safe in our Saxion-buildings.

- The cabinet advises to do a self-test twice a week.
- Order your COVID-19 self-tests for free via [www.zelftestonderwijs.nl](http://www.zelftestonderwijs.nl).
- The use of self-tests is voluntary.
- If you have any symptoms that resemble those of COVID-19, stay at home and make an appointment with the GGD (Municipal Health Services) for a test. Self-testing does not replace a GGD test.

## Vaccinations are helping to make sure universities are safe spaces

We encourage you to get vaccinated if you haven't already. You can make an appointment for this via [www.planjeprik.nl](http://www.planjeprik.nl) or by calling the GGD (Municipal Health Services). You can also get **vaccinated without an appointment.**
